

Seneca County Manufacturing Showcase 2017

Due to the increased difficulty of finding qualified candidates to fill area manufacturing positions, this event has been developed to educate and promote careers in manufacturing to our youth and this year will be the 2nd year for the event. The purpose of the showcase is to provide information and hands-on experiences to area high school freshmen from Seneca County. The students will go through manufacturing skill set stations focusing on the following 6 skills: Team Building, LEAN, Employability, Machining, Supply Chain, and Mechanical Engineering/Electrical Trades/Automation. This Showcase will be provided at no cost to students and we anticipate hosting almost 800 students at Tiffin University's Heminger Center on October 13, 2017. Your generous donation will help us expose our youth to the world of manufacturing. Sponsors will be recognized in all media releases and on signage at the event.

Thank you for your support!

Your contribution needs to be in the form of a check, payable to: **Seneca County Department of Job and Family Services**. The check should note that the donation is for the Manufacturing Showcase. Please mail checks to 900 E County Road 20, Tiffin, OH 44883.
